

IDEAS

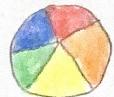

- Number of Unicorn over each country

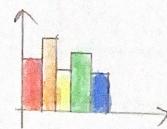

- Growth of unicorn companies over the year

- Portion of Unicorn by Industries

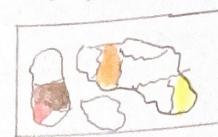

- Top 10 Investors

FILTER

- Number of Unicorn over each country

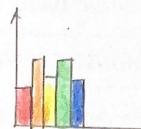

- Growth of unicorn companies over the year

- Proportion of unicorn by Industries

- Top 10 Investors

Categorize

Number of Unicorn over each country

Growth of unicorn companies over the year

Portion of unicorn by Industries

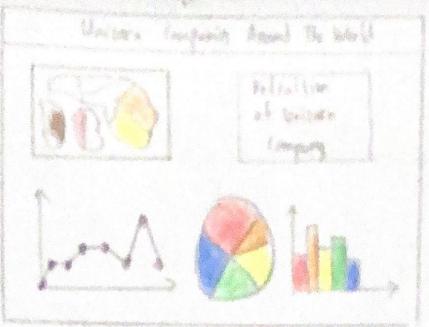

Top 10 investors

Combine & Refine

Question

- 1) Can the dataset create more chart

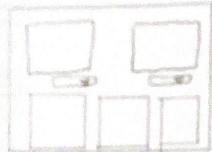

Layout

Sheet 2

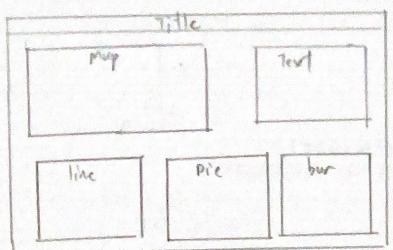

Airav Hae Jing Yang

Operation

Two drop down menu consist of
Industries and years to choose which
will affect their related charts

Focus

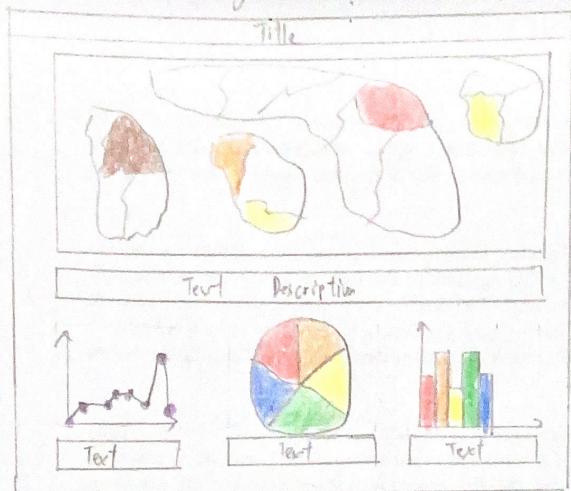

In this dashboard, although the map chart
seems to be slightly bigger than the others
but all the chart got equal exposure

Discussion

1) Can this visualization be improved

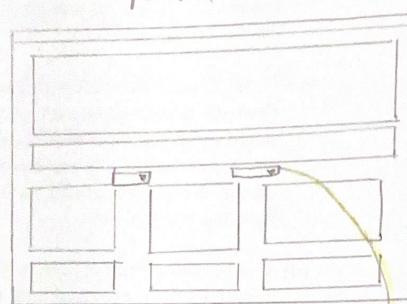

Layout

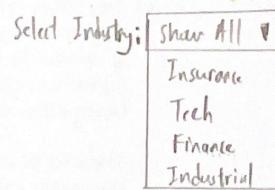

Sheet 3

Author: Hoe Jing Yung

Operation

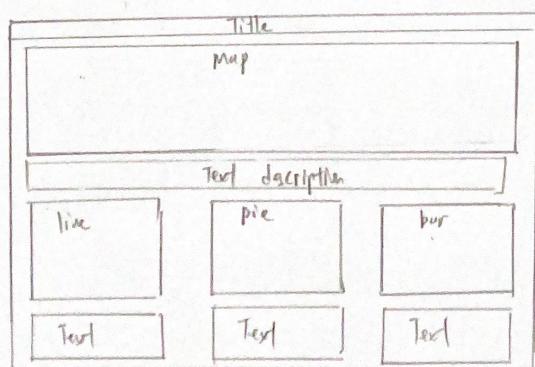

Like the previous one this also use
drop down menu

Focus

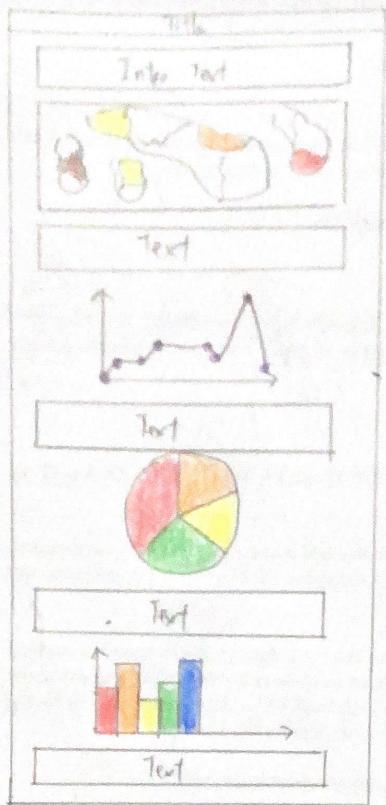

This visualization focus on showing the map chart
but also provide equal space for other charts

Discussions

- 1) Is this visualization better than
the previous one

Layout

Sheet 4

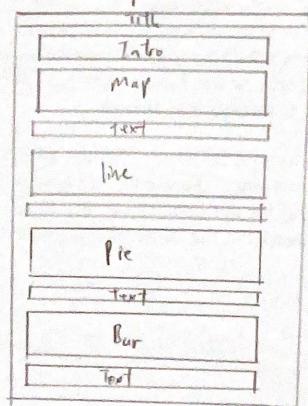

Author: Hze Jing Yung

Operator

This visualization also uses drop down menu like the previous design

Focus

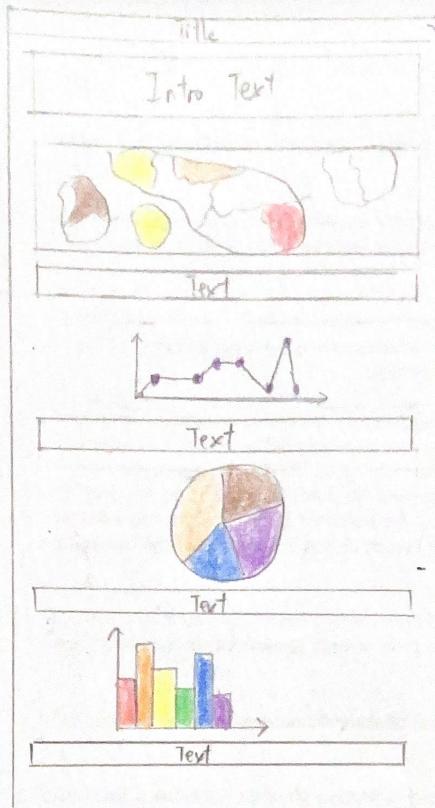

This visualization provides an equal view to each chart while also provide text description of their observations

Discussions

- 1) Will providing description of observations on each graph provides user a better understanding on the visualization

Layout

Final Design sheet

Author: Hae Jing Yung

Operation

Like the previous design, this design also uses two drop down box

Focus

The layout is same as sheet 4
thus they focus on the same thing

Detail

- Design everything using Vega Lite and HTML
- Estimate time to build: 2 weeks
- Try to make the size of each chart looks equal
